Control

Making a difference, this is what we are all about at Premier Tech. One team driven by a shared passion to deliver solutions that will better the lives of people, businesses and communities.

At Premier Tech, People and Technologies connect in lasting, transformative ways, giving life to products and services that help feed, protect and improve our world.

We are committed to creating sustainable solutions that help bring beautiful gardens to life, increase crop yields, improve the efficiency of manufacturing facilities, treat and recycle water, and much more as we keep innovating.

We are Premier Tech

People and Technologies making a difference

HOME AND GARDEN

Driven by our passion and expertise, we are committed to providing homeowners with products to bring their dream gardens to life and to protect their home and family.

By strategically developing our PRO-MIX®, C-I-L®, Wilson® and Alaskan® brands, we have earned a reputation over the years for protecting homes and gardens, keeping them looking great year after year.

We help homeowners achieve stunning results with our growing media, ground covers, garden fertilizers, lawn and garden care products, pest control solutions, and winter defense solutions.

CONTROL

INTRODUCING NEW WILSON® GRUB OUT®

In granular form

- Acts on Chinch Bugs and White Grubs (Japanese Beetle and European Chafer) in lawns
- A naturally occurring fungus in a granular formulation
- Easy to apply directly from the jug

AN IDEAL SOLUTION FOR WEED CONTROL

Now with refill bottles!

**KILLS WEEDS
OFF THE LAWN**

**KILLS WEEDS
IN THE LAWN**

- **WILSON®** is the first control brand to introduce refillable products
- Research shows that 54% of consumers would purchase a refill at the same time as the sprayer bottle*

* Business Intelligence Report – December 2020 – Big Box, Hardware and Mass Channels – Ipsos 2020 Omnibus

WEED CONTROL

wilson

WILSON® WEED OUT® Lawn Weed Killer

- An ultra effective selective lawn weed killer

PRODUCT SAFETY AND FIRST AID

FOR PRODUCT RELATED INFORMATION AND IN CASE OF EMERGENCY CALL 1-800-268-2806

EMERGENCY SUPPLIES

Keep the following minimum supplies readily available

Rubber or Neoprene Gloves	(2 pairs)
Rubber or Neoprene Overshoes	(1 pair)
Absorbent Material i.e., cat litter, etc	(1 large bag)
Detergent strong household type, e.g. Tide, All, etc.	(10 lb or 2 qt.)
Disposable Pail with lid	(5 gal.)
Disposable Plastic Bags heavy-duty garden type	(2)
Broom household type with natural bristles	(1)
Scoop Shovel	(1)
Fire Extinguisher rated for A, B, & C type fires	(10 lb)

PESTICIDE/FERTILIZER SAFETY RULES

**PTHG PRODUCTS ARE MANUFACTURED TO EXACTING SCIENTIFIC STANDARDS.
ALWAYS APPLY AS DIRECTED ON THE LABEL FOR SAFE HANDLING & EFFECTIVENESS.**

- Purchase only DOMESTIC class products.
- READ THE COMPLETE LABEL BEFORE USE.
Pay close attention to package warning symbols – e.g., Flammable, Explosive, Poison, etc.
- Follow label directions exactly. Measure, do not guess.
- Apply only when required and at recommended application rates.
- Apply only to those plants/crops listed on the label.
- Observe the “no-spray” interval before harvest for fruits and vegetables.
- Store pesticides in a safe place, out of reach of children and pets and preferably locked.
Never in proximity to food or beverages.
- Do not spray pesticides on windy days. Wear chemical resistant gloves and goggles while mixing and applying pesticides.
- Use separate sprayers for herbicides and insecticides/fungicides. Do not leave sprayers unattended while spraying.
- Keep children and pets away while applying pesticides and do not let them return to the area until it has thoroughly dried.
- NEVER transfer pesticides out of their labelled container.
- Use garden chemical measuring devices. Do not use kitchen utensils.
- Wash equipment after use.
- Never reuse empty pesticide containers. Check label for appropriate disposal instructions.
Some empty containers may be recyclable.
- To dispose of unwanted pesticide product, contact your regional government Household Hazardous Waste Department.
- Wash hands and face with soap and water after applying pesticides and before eating or smoking.
- Wash fruits and vegetables before eating.

IN CASE OF ACCIDENTAL CONTACT

EYES

- Flush with water for 15 minutes.
- Get medical attention immediately.
- Refer to product label for further instructions.

CLOTHES

- Remove contaminated clothing and wash skin thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material, get medical attention immediately.
- Wash clothing separately in strong detergent before reusing.

HANDS

- Wash thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material get medical attention immediately.

EMERGENCY PROCEDURE

- 1 Isolate area. Keep people away. Barricade aisles.
- 2 Ventilate area. Do not breathe vapors. Open doors and window. Set up fan. Close return grills on air conditioners.

- 3 Keep fire sources away.

STOP

IN CASE OF SPILL, CONTACT YOUR LOCAL, PROVINCIAL OR FEDERAL DEPARTMENT OF ENVIRONMENT

- 4 Put on rubber or neoprene gloves and overshoes.
- 5 Ready fire fighting equipment.
- 6 If a liquid – absorb until dry. Contain liquid around edges. Sweep absorbent from edges toward the middle. See “Emergency Supplies” for recommended materials.
- 7 Carefully place absorbent or spilled dry product in disposable containers.
- 8 Scrub spilled area with concentrated detergent using broom. Absorb and pick up per steps 6 and 7. Discard soaked materials and merchandise. Scrub lightly splashed items. Scrub out corners and crevices.
- 9 Dispose of sweepings, broken product containers, broom, other contaminated waste in accordance with recommendations of local health authorities.
- 10 Wash gloves, overshoes and shovel with strong detergent solution. Remove clothing and wash separately in detergent.

Call a doctor or Poison Control Centre immediately if poisoning occurs. Retain packaging for chemical reference. Carefully follow label directions for first aid.

NOTE: Take container, label or product name and registration number with you when seeking medical attention.

Safety & Technical Support: PTHG recommends your staff and customers familiarize themselves completely with our products by READING THE PRODUCT LABELS before use. Should questions arise, contact the Regional Office closest to you.

PROVINCIAL CLASSIFICATION GUIDE

Note : The pesticide classification coding used in that table is specific to Premier Tech. Other companies or customers may use a different coding system.

		Class description & Shelf Placement ¹	Licensing & Other retailer requirements
BC	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	2	Self-select. “Excluded products” (such as acetic acid, boron, corn gluten, aerosols, diatomaceous earth, soaps, sulphur, ...).	No license required.
	5	Restricted access. ² Mostly biopesticides and other “low-risk” products.	Requires Vendor License for business plus certified employee.
	D	Restricted access. ² All domestic products not in schedule 2 or 5.	Requires Vendor License for business plus certified employee. Consumer needs a certificate to apply the product (online training) , except for glyphosate when used to control poisonous, noxious and invasive plants and weeds growing through cracks in hard surfaces (asphalt or concrete).
AB	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	3	Self-select. Domestic pesticides for use by homeowners, includes all herbicides. Cannot be displayed: i) in the same aisle as food or personal use items, ii) closer than 3 m from food or personal use items, iii) where floor drains cannot be protected from pesticide release, iv) that is not protected from rain, wind and other weather hazards.	Retail sales: • Each retail location must have a certified dispenser (Lawn & Garden certificate). Must have a certified dispenser or trained assistant working whenever outlet is open for business. Wholesales require • Wholesale Vendor Registration
	4	Self-select. Domestic pesticides that do not present a significant risk to humans and environment (e.g.: animal repellents, rodenticides, insecticide aerosols, insect bait stations, insect repellents, ...)	Does not require vendor registration and certified dispenser.
SK	–	Self-select. Pest Control Products Act and Regulations do not apply (products not considered as pesticides)	No license required.
	D	Self-select. Registered domestic pesticides. Vendor must ensure that pesticide is kept and stored separate from any foodstuffs, feeds or other material intended for consumption by humans or animals.	No license required.
MB	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	SS	Self-select. All registered pesticides not CP, including herbicides of the allowable list.	No license required.
	CP	Restricted access. ² Herbicides not on the allowable list. Can be sold only: • for ornamental, fruit & vegetable garden uses, • to control poisonous or invasive plant species and noxious weeds, • to maintain specialty turf (lawn bowling, lawn tennis, cricket) and professional sport fields.	No license required. Retailer must: • Employ at least one trained employee. • Provide copy of Prescribed Pesticide Handout to customer. • Keep record of prescribed sales for 5 years.
	CA	Restricted access. ² Pesticides (animal repellents) containing the active ingredient capsaicin.	Pesticide Dealer License required (same license that is required to sell commercial pesticides). Retailer must: • Employ at least one employee that will be responsible for the license (need to sign the Declaration Form on behalf of the business). • Ensure that individuals purchasing capsaicin-containing products complete & sign the <i>Declaration of Purchaser (Form 7)</i> . • Keep record of prescribed sales.
	X	No sales allowed. Herbicides not on the allowable list that are not eligible to any excepted use outlined in the CP class.	N/A (no sales allowed).
ON	–	Self-select. Exempt from pesticide regulation.	No license required.
	SS1	Self-select. Domestic RTU pesticide with size ≤ 1L (or 1 kg). All labelled uses are acceptable in ON or product active ingredient is on the allowable list.	No license required.
	SS2	Self-select. Domestic pesticide is a concentrate or has size >1L (or 1 kg). All labelled uses are acceptable in ON or product active ingredient is on the allowable list.	Retailer needs a pesticide vendor license (Limited or General)
	CP	Restricted access. ² Domestic pesticides for which some label uses are prohibited. Contains an active ingredient not on the allowable list.	Retailer needs a pesticide vendor license (Limited or General). Must provide handout to consumer at time of purchase.
	X	No sales allowed. Domestic pesticides with active ingredient not on the allowable list for which all labelled uses are prohibited.	N/A (no sales allowed).

PROVINCIAL CLASSIFICATION GUIDE

DOMESTIC PESTICIDES

QC	–	Self-select. Products exempted from regulations, such as W&F corn gluten meal, nematodes, sonic repellents, disinfectants, etc.	No license required.
	4	Restricted access. ² Mostly products ≥1L or concentrates and/or with active ingredient not considered as “low-risk”.	Retailer requires B2 pesticide permit. Need at least 1 certified employee (B2 certificate).
	5	Self-select. Biopesticides (all sizes / concentrations) and other low-risk products ready to use ≤1L (including synthetic analogs of pyrethrins).	No license required.
	X	No sales allowed. Multipacks (e.g. dormant kits) and lawn products with banned actives, such as carbaryl, malathion, 2,4-D, mecoprop, etc. Exceptions to the Québec ban of multipacks. To be allowed, a multipack must meet the following criteria: 1) The containers must all have the same registration number; 2) the total weight / volume of the containers must not exceed 1 kg or 1 L; 3) Must be for at least one of the following uses: insect attractant or repellent; insecticide for treatment of domestic animals; bait stations (for insects or rodents); personal insect repellent; biting insect larvicide.	N/A (no sales allowed).
NB	–	Self-select. Pesticides not affected by ban. No specific display restriction.	No license required.
	X	No sales allowed. Banned lawn-care products, have at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D.	N/A (no sales allowed).
PE	–	Self-select. Products not subject to the pesticide regulations.	No license required.
	SS	Self-select. Products with actives on the “Self-select” list or RTU ≤1L. Display at least 1 m from human food, animal feed, personal items, household furnishings, etc.	No license required.
	CP	Restricted access. ² Products >1L or concentrates with active not on the “self-select” list.	Requires Domestic Pesticide Vendor Business License for company (retailer) & at least one certified employee (Domestic Pesticide Vendor Certificate) for each outlet.
	X	No sales allowed. Banned lawn-care products with at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D	N/A (no sales allowed).
NS	–	Self-select. Non-essential pesticides regulations do not apply to these products, because not for lawns or ornamental (outdoor trees, shrubs, flowers, ornamentals) uses. Includes rodenticides, insecticide aerosols, and more.	No license required.
	SS	Self-select. Lawn & ornamental products with active ingredient listed on the Nova Scotia “List of Allowable Pesticides”.	No license required.
	CP	Restricted access. ² Products with lawn and/or ornamentals uses on the label and active ingredient not on the allowable list. Sale of CP product allowed for “Excepted uses” (such as control of health concern pests, poisonous or invasive plants, structure damaging pests), and for uses not affected by regulations (ie. not for use on lawns & ornamentals, such as indoor use, cracks and crevices, etc.).	Retailer must have certified employees (Class I(B) Domestic Vendor Certificate) to sell Controlled Purchase products. Employee must provide consumer with “Excepted uses” handout at time of purchase.
	X	No sales allowed. Banned (doesn’t have excepted uses on label).	N/A (no sales allowed).
NL	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	D	Self-select. All domestic pesticides not subject to the ban. Store/display at least 1 m from food, beverages, personal use items, seeds, fertilizers, soils and items for animal use. Rodenticides at least 1 m above floor. Store/display all pesticides in a manner: • that contains any leakage, • that pesticides are protected from wind, rain and other weather hazards, • that display units are constructed of a non-absorbent or disposable material.	Retailer needs Business Pesticide Vendor Licence. Vendor shall provide annual sales by Feb. 28 th .
	X	No sales allowed. Nematodes and lawn products that contain either 2,4-D, carbaryl, mecoprop, dicamba or MCPA.	N/A (no sales allowed).

¹**Display recommendations for all pesticides:** away from food, beverages, personal use items and pet food (at least 1 m), and preferably in a manner that presents minimal hazard to children (1 m above floor).

²**Restricted access:** Must be displayed in a way that prevents direct access by consumers to these products.
