Making a difference, this is what we are all about at Premier Tech. One team driven by a shared passion to deliver solutions that will better the lives of people, businesses and communities.

At Premier Tech, People and Technologies connect in lasting, transformative ways, giving life to products and services that help feed, protect and improve our world.

We are committed to creating sustainable solutions that help bring beautiful gardens to life, increase crop yields, improve the efficiency of manufacturing facilities, treat and recycle water, and much more as we keep innovating.

We are Premier Tech

People and Technologies making a difference

# HOME AND GARDEN

Driven by our passion and expertise, we are committed to providing homeowners with products to bring their dream gardens to life and to protect their home and family.

By strategically developing our PRO-MIX®, C-I-L®, Wilson® and Alaskan® brands, we have earned a reputation over the years for protecting homes and gardens, keeping them looking great year after year.

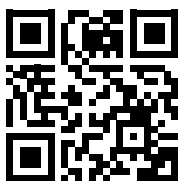

We help homeowners achieve stunning results with our growing media, ground covers, garden fertilizers, lawn and garden care products, pest control solutions and winter defense solutions.

# PRO-MIX®

**The PRO-MIX® brand started in 1968** with the launch of the very first ready-to-use, peat-based growing medium. Today, PRO-MIX® offers a line of products enriched with natural active ingredients including mixes, grass seeds and fertilizers that help North American gardeners **bring their garden to life** and **achieve optimal results.**

## PRO-MIX® Potting Mix

- With MYCOACTIVE® technology
- Great for potting and re-potting plants
- Formulated with natural coconut fibre that increases water holding capacity and reduces watering frequency
- Contains a controlled-release fertilizer feeding your plants for up to 9 months

CODE	UPC	SIZE	PALLET
4980131	0 25849 01231 1	18 L	63 bags
4980141	0 25849 01232 8	28.3 L	90 bags
4980151	0 25849 01233 5	56.6 L	48 bags

## PRO-MIX® Organic Vegetable & Herb Mix

- With MYCOACTIVE® technology
- For containers, vegetables, fruits and herbs
- Formulated with natural ingredients
- Contains an organic fertilizer that gradually releases nutrients to plants
- Approved for organic use

CODE	UPC	SIZE	PALLET
4981401	0 25849 01237 3	28.3 L	90 bags

## PRO-MIX® Organic Lawn Soil

- With MYCOACTIVE® technology
- Strengthens and expands the root system to optimize water and nutrient absorption
- Contains compost, a rich organic fertilizer charge
- Feeds your lawn for up to 3 months
- Up to 50% thicker lawn compared to other soil brands
- Approved for organic use

Pallet surround available for in-store or outdoor display (see p. 65)

CODE	UPC	SIZE	PALLET
4981801	0 25849 98180 8	28.3 L	90 bags

## PRO-MIX® Organic Moisture Mix

- With MYCOACTIVE® technology
- Lightweight soil mix offering optimal aeration and 30% more water retention
- Contains coir for protection against over and underwatering
- Can be used for fruits and vegetables, for pots and containers
- Approved for organic use

CODE	UPC	SIZE	PALLET
4981201	0 25849 98120 4	28.3 L	90 bags

## PRO-MIX® Organic Container Mix

- With MYCOACTIVE® technology
- For all indoor and outdoor container plants and hanging baskets
- Formulated with natural coconut fibre that increases water holding capacity and reduces watering frequency
- Provides optimum aeration, drainage and nutrients
- Contains an organic fertilizer feeding your plants for up to 3 months
- Approved for organic growing

CODE	UPC	SIZE	PALLET
4980201	0 25849 11113 7	28.3 L	90 bags

# OUTDOOR GROWING MEDIA

## PRO-MIX® Potting Mix

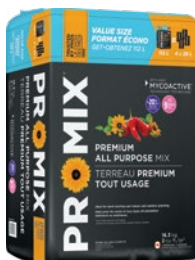

- With MYCOACTIVE® technology
- Great for potting and re-potting plants
- Formulated with natural coconut fibre that increases water holding capacity and reduces watering frequency
- Contains a controlled-release fertilizer feeding your plants for up to 9 months
- Great consumer value: 2 cu. ft. bale expands to 4 cu. ft.

CODE	UPC	SIZE	PALLET
4981601	0 25849 01207 6	2 cu. ft. comp.	2 x 25 bags

## PRO-MIX® All Purpose Mix

- With MYCOACTIVE® technology
- Suitable for all indoor and outdoor planting
- Formulated for a wide range of plant species
- Contains a controlled-release fertilizer, feeding your plants for up to 9 months
- Great consumer value: 2 cu. ft. bale expands to 4 cu. ft.

VISIT **WILSONCONTROL.COM**

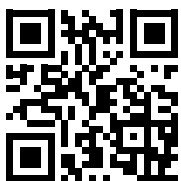

**Alaskan®** is the leading ice melter brand in Canada\* with its exclusive TrueBlue Technology. Providing Canadian homeowners with a range of premium ice melting products, it **protects consumers under all winter conditions.**

\*Compared to other de-icing products at temperatures of -10 °C and colder, Alaskan® Premium melted more ice per hour.

**Visit our new  
Alaskan® website\***

\*Coming in December

Introducing our  
new, more modern  
packaging for a  
bigger impact,  
greater clarity  
and more sales

# MELTS MORE, FASTER, COLDER.

**FAST-ACTING  
LIQUID-INFUSED  
GRANULES**

Compared to the previous formulation  
of Alaskan® Premium Ice Melter,  
the new technology:

- ✓ Melts **2x** more ice\*
- ✓ Penetrates ice **50%** faster  
and **18%** deeper
- ✓ Melts at colder temperatures,  
now down to **-35 °C**

\* at -20 °C

# NEW BROADER POSITIONING!

Alaskan® Liquid Ice Melter  
(formerly Alaskan® Ice Preventer):

- Ideal for **melting** ice & snow **after** a snowfall
- **Prevents** ice & snow from bonding to surfaces when used **before** a snowfall
- Does **not** track residual product into the house
- Same **optimal** delivery system

# NEW & IMPROVED FORMULA

- Melts **2x** more ice than previous Alaskan® Pet Friendly Ice Melter formula
- Melts at temperatures 15 degrees colder than before, now down to **-26 °C**

# ICE MELTERS

# CERTIFICATIONS

## THE HIGHEST QUALITY CANADIAN SPHAGNUM PEAT MOSS

- ✓ A unique approach to peat moss gradation and selection
- ✓ Harvesting techniques for standard weight and quality control
- ✓ Industry leader for consistency and outstanding product uniformity
- ✓ The company other peat companies rely on for industry innovation and technology

Premier Tech's peat moss comes from bogs that are certified under the Veriflora Program. This certification ensures the application of good management principles in all aspects of sustainable development. The criteria include environmental assessment, social engagement and product quality.

OMRI-listed products are allowed for use in certified organic production by the Organic Material Review Institute.

# PRODUCT SAFETY AND FIRST AID

## FOR PRODUCT-RELATED INFORMATION AND IN CASE OF EMERGENCY, CALL 1-800-268-2806

### EMERGENCY SUPPLIES

Keep the following minimum supplies readily available:

Rubber or neoprene gloves .....	(2 pairs)
Rubber or neoprene overshoes .....	(1 pair)
Absorbent material e.g., cat litter, etc. ....	(1 large bag)
Detergent strong household type e.g., Tide, All, etc. ....	(10 lb or 2 qt.)
Disposable pail with lid .....	(5 gal.)
Disposable plastic bags heavy-duty garden type .....	(2)
Broom household type with natural bristles .....	(1)
Scoop shovel .....	(1)
Fire extinguisher rated for A, B, & C type fires .....	(10 lb)

### PESTICIDE/FERTILIZER SAFETY RULES

**PTHG PRODUCTS ARE MANUFACTURED TO EXACTING SCIENTIFIC STANDARDS.  
ALWAYS APPLY AS DIRECTED ON THE LABEL FOR SAFE HANDLING & EFFECTIVENESS.**

- Purchase only DOMESTIC class products.
- READ THE COMPLETE LABEL BEFORE USE.  
Pay close attention to package warning symbols – e.g., Flammable, Explosive, Poison, etc.
- Follow label directions exactly. Measure, do not guess.
- Apply only when required and at recommended application rates.
- Apply only to those plants/crops listed on the label.
- Observe the “no-spray” interval before harvest for fruits and vegetables.
- Store pesticides in a safe place, out of reach of children and pets and preferably locked.  
Never in proximity to food or beverages.
- Do not spray pesticides on windy days. Wear chemical-resistant gloves and goggles while mixing and applying pesticides.
- Use separate sprayers for herbicides and insecticides/fungicides. Do not leave sprayers unattended while spraying.
- Keep children and pets away while applying pesticides and do not let them return to the area until it has thoroughly dried.
- NEVER transfer pesticides out of their labelled container.
- Use garden chemical measuring devices. Do not use kitchen utensils.
- Wash equipment after use.
- Never reuse empty pesticide containers. Check label for appropriate disposal instructions.  
Some empty containers may be recyclable.
- To dispose of unwanted pesticide product, contact your regional government Household Hazardous Waste Department.
- Wash hands and face with soap and water after applying pesticides and before eating or smoking.
- Wash fruits and vegetables before eating.

### IN CASE OF ACCIDENTAL CONTACT

#### EYES

- Flush with water for 15 minutes.
- Get medical attention immediately.
- Refer to product label for further instructions.

#### CLOTHES

- Remove contaminated clothing and wash skin thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material, get medical attention immediately.
- Wash clothing separately in strong detergent before reusing.

#### HANDS

- Wash thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material, get medical attention immediately.

### EMERGENCY PROCEDURE

- 1 Isolate area. Keep people away. Barricade aisles.
- 2 Ventilate area. Do not breathe vapours. Open doors and windows. Set up fan. Close return grills on air conditioners.

- 3 Keep fire sources away.

### STOP

IN CASE OF SPILL, CONTACT YOUR LOCAL, PROVINCIAL OR FEDERAL DEPARTMENT OF ENVIRONMENT.

- 4 Put on rubber or neoprene gloves and overshoes.
- 5 Ready fire fighting equipment.
- 6 If a liquid – absorb until dry. Contain liquid around edges. Sweep absorbent from edges toward the middle. See “Emergency Supplies” for recommended materials.
- 7 Carefully place absorbent or spilled dry product in disposable containers.
- 8 Scrub spilled area with concentrated detergent using broom. Absorb and pick up per steps 6 and 7. Discard soaked materials and merchandise. Scrub lightly splashed items. Scrub out corners and crevices.
- 9 Dispose of sweepings, broken product containers, broom and other contaminated waste in accordance with recommendations of local health authorities.
- 10 Wash gloves, overshoes and shovel with strong detergent solution. Remove clothing and wash separately in detergent.

Call a doctor or Poison Control Centre immediately if poisoning occurs. Retain packaging for chemical reference. Carefully follow label directions for first aid.

NOTE: Take container, label or product name and registration number with you when seeking medical attention.

Safety & Technical Support: Premier Tech recommends your staff and customers familiarize themselves completely with our products by READING THE PRODUCT LABELS before use. Should questions arise, contact the Regional Office closest to you.

# PROVINCIAL CLASSIFICATION GUIDE DOMESTIC PESTICIDES

	BC	AB	SK	MB	ON	QC	NB	PE	NS	NL
<b>Self-select</b>	– / 2	– / 3 / 4	– / D	– / SS	– / SS1 / SS2	– / 5	–	– / SS	– / SS	– / D
<b>Restricted access</b>	D / 5			CP / CA	CP	4		CP	CP	
<b>No sales allowed (ban)</b>				X	X	X	X	X	X	X

SS: Self-Select CP: Controlled purchase CA: Capsaicin X: Banned (no sales allowed) D: Domestic –: Regulations do not apply

Note: The pesticide classification coding used in that table is specific to Premier Tech. Other companies or customers may use a different coding system.

		Class description & shelf placement <sup>1</sup>	Licensing & other retailer requirements
BC	–	<b>Self-select.</b> Horticultural products not subject to the pesticide regulations.	No license required.
	2	<b>Self-select.</b> “Excluded products” (such as acetic acid, boron, corn gluten, aerosols, diatomaceous earth, soaps, sulphur, ...).	No license required.
	5	<b>Restricted access.</b> <sup>2</sup> Mostly biopesticides and other “low-risk” products.	Requires Vendor License for business plus certified employee.
	D	<b>Restricted access.</b> <sup>2</sup> All domestic products not in schedule 2 or 5.	Requires Vendor License for business plus certified employee. <b>Consumer needs a certificate to apply the product (online training)</b> , except for glyphosate when used to control poisonous, noxious and invasive plants and weeds growing through cracks in hard surfaces (asphalt or concrete).
AB	–	<b>Self-select.</b> Horticultural products not subject to the pesticide regulations.	No license required.
	3	<b>Self-select.</b> Domestic pesticides for use by homeowners, includes all herbicides. Cannot be displayed: i) in the same aisle as food or personal use items, ii) closer than 3 m from food or personal use items, iii) where floor drains cannot be protected from pesticide release, iv) that is not protected from rain, wind and other weather hazards.	Retail sales: • Each retail location must have a certified dispenser (Lawn & Garden certificate). Must have a certified dispenser or trained assistant working whenever outlet is open for business. Wholesales require: • Wholesale Vendor Registration
	4	<b>Self-select.</b> Domestic pesticides that do not present a significant risk to humans and environment (e.g., animal repellents, rodenticides, insecticide aerosols, insect bait stations, insect repellents, ...)	Does <b>not</b> require vendor registration and certified dispenser.
SK	–	<b>Self-select.</b> Pest Control Products Act and Regulations do not apply (products not considered as pesticides)	No license required.
	D	<b>Self-select.</b> Registered domestic pesticides. Vendor must ensure that pesticide is kept and stored separate from any foodstuffs, feeds or other material intended for consumption by humans or animals.	No license required.
MB	–	<b>Self-select.</b> Horticultural products not subject to the pesticide regulations.	No license required.
	SS	<b>Self-select.</b> All registered pesticides not CP, including herbicides of the allowable list.	No license required.
	CP	<b>Restricted access.</b> <sup>2</sup> Herbicides not on the allowable list. Can be sold only: • for ornamental, fruit & vegetable garden uses, • to control poisonous or invasive plant species and noxious weeds, • to maintain specialty turf (lawn bowling, lawn tennis, cricket) and professional sport fields.	No license required. Retailer must: • Employ at least one trained employee. • Provide copy of Prescribed Pesticide Handout to customer. • Keep record of prescribed sales for 5 years.
	CA	<b>Restricted access.</b> <sup>2</sup> Pesticides (animal repellents) containing the active ingredient capsaicin.	Pesticide Dealer License required (same license that is required to sell commercial pesticides). Retailer must: • Employ at least one employee that will be responsible for the license (need to sign the Declaration Form on behalf of the business). • Ensure that individuals purchasing capsaicin-containing products complete & sign the <i>Declaration of Purchaser (Form 7)</i> . • Keep record of prescribed sales.
	X	<b>No sales allowed.</b> Herbicides not on the allowable list that are not eligible to any excepted use outlined in the CP class.	N/A (no sales allowed).
ON	–	<b>Self-select.</b> Exempt from pesticide regulation.	No license required.
	SS1	<b>Self-select.</b> Domestic RTU pesticide with size ≤ 1 L (or 1 kg). All labelled uses are acceptable in ON or product active ingredient is on the allowable list.	No license required.
	SS2	<b>Self-select.</b> Domestic pesticide is a concentrate or has size >1 L (or 1 kg). All labelled uses are acceptable in ON or product active ingredient is on the allowable list.	Retailer needs a pesticide vendor license (Limited or General).
	CP	<b>Restricted access.</b> <sup>2</sup> Domestic pesticides for which some label uses are prohibited. Contains an active ingredient not on the allowable list.	Retailer needs a pesticide vendor license (Limited or General). Must provide handout to consumer at time of purchase.
	X	<b>No sales allowed.</b> Domestic pesticides with active ingredient not on the allowable list for which all labelled uses are prohibited.	N/A (no sales allowed).

# PROVINCIAL CLASSIFICATION GUIDE

## DOMESTIC PESTICIDES

QC	–	<b>Self-select.</b> Products exempt from regulations, such as weed & feed corn gluten meal, nematodes, sonic repellents, disinfectants, etc.	No license required.
	4	<b>Restricted access.</b> <sup>2</sup> Mostly products ≥1 L or concentrates and/or with active ingredient not considered as “low-risk”.	Requires B2 pesticide permit and at least 1 certified employee (B2 certificate).
	5	<b>Self-select.</b> Biopesticides (all sizes / concentrations) and other low-risk products ready to use ≤1 L (including synthetic analogs of pyrethrins).	No license required.
	X	<b>No sales allowed.</b> Multipacks (e.g. dormant kits) and lawn products with banned actives, such as carbaryl, malathion, 2,4-D, mecoprop, etc. <b>Exceptions to the Québec ban of multipacks.</b> To be allowed, a multipack must meet the following criteria: 1) The containers must all have the same registration number; 2) the total weight / volume of the containers must not exceed 1 kg or 1 L; 3) Must be for at least one of the following uses: insect attractant or repellent; insecticide for treatment of domestic animals; bait stations (for insects or rodents); personal insect repellent; biting insect larvicide.	N/A (no sales allowed).
NB	–	<b>Self-select.</b> Pesticides not affected by ban. No specific display restriction.	No license required.
	X	<b>No sales allowed.</b> Banned lawn-care products, have at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D.	N/A (no sales allowed).
PE	–	<b>Self-select.</b> Products not subject to the pesticide regulations.	No license required.
	SS	<b>Self-select.</b> Products with actives on the “Self-select” list or RTU ≤1 L. Display at least 1 m from human food, animal feed, personal items, household furnishings, etc.	No license required.
	CP	<b>Restricted access.</b> <sup>2</sup> Products >1 L or concentrates with active not on the “self-select” list.	Requires Domestic Pesticide Vendor Business License for company (retailer) & at least one certified employee (Domestic Pesticide Vendor Certificate) for each outlet.
	X	<b>No sales allowed.</b> Banned lawn-care products with at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D.	N/A (no sales allowed).
NS	–	<b>Self-select.</b> Non-essential pesticides regulations do not apply to these products, because not for lawns or ornamental (outdoor trees, shrubs, flowers, ornamentals) uses. Includes rodenticides, insecticide aerosols, and more.	No license required.
	SS	<b>Self-select.</b> Lawn & ornamental products with active ingredient listed on the Nova Scotia “List of Allowable Pesticides”.	No license required.
	CP	<b>Restricted access.</b> <sup>2</sup> Products with lawn and/or ornamentals uses on the label and active ingredient not on the allowable list. Sale of CP product allowed for “Excepted uses” (such as control of health concern pests, poisonous or invasive plants, structure damaging pests), and for uses not affected by regulations (ie. not for use on lawns & ornamentals, such as indoor use, cracks and crevices, etc.).	Retailer must have certified employees (Class I(B) Domestic Vendor Certificate) to sell Controlled Purchase products. Employee must provide consumer with “Excepted uses” handout at time of purchase.
	X	<b>No sales allowed.</b> Banned (doesn’t have excepted uses on label).	N/A (no sales allowed).
NL	–	<b>Self-select.</b> Horticultural products not subject to the pesticide regulations.	No license required.
	D	<b>Self-select.</b> All domestic pesticides not subject to the ban. Store/display at least 1 m from food, beverages, personal use items, seeds, fertilizers, soils and items for animal use. <b>Rodenticides at least 1 m above floor.</b> Store/display all pesticides in a manner: <ul style="list-style-type: none"> <li>• that contains any leakage,</li> <li>• that pesticides are protected from wind, rain and other weather hazards,</li> <li>• that display units are constructed of a non-absorbent or disposable material.</li> </ul>	Retailer needs Business Pesticide Vendor Licence. Vendor shall provide annual sales by Feb. 28.
	X	<b>No sales allowed.</b> Nematodes and lawn products that contain either 2,4-D, carbaryl, mecoprop, dicamba or MCPA.	N/A (no sales allowed).

<sup>1</sup>**Display recommendations for all pesticides:** away from food, beverages, personal use items and pet food (at least 1 m), and preferably in a manner that presents minimal hazard to children (1 m above floor).

<sup>2</sup>**Restricted access:** Must be displayed in a way that prevents direct access by consumers to these products.
